Technological advances are providing increased opportunities for people with disabilities to live in their own homes. From items that empower a person with disabilities to complete activities to remote monitoring applications that increase autonomy, technology continues to empower people with disabilities. How technology can support you in a supported living arrangement has to be determined in a person-centered manner. There is no one size fits all when it comes to technology.

The NC Innovations Waiver offers an Assistive Technology Service that allows for the purchase of equipment to help you with daily life tasks and the purchase of smart home technology. Contact the Local Management Entity /Managed Care Organization (LME/MCO) that is responsible for your NC Innovations Waiver services to learn processes for accessing this resource.

The NC Assistive Technology Program (NCATP) is available to complete an assessment to connect you to assistive technology. Simply Home is a technology vendor in NC that specializes in smart home technology. Simply Home offers ways for provider agencies to revolutionize the way they monitor people for safety a myriad of ways to empower people with disabilities to live a self-determined life.
